

# A REPORT ON THE CAUSES SUGAR PRICE INFLATION IN UGANADA TODAY

Muwonge Julius REG 15/U/8595/PS

May 21, 2017

## 1 Executive summary

This report is about the causes of sugar price inflation in Uganda today and ideologic resolutions that ordinary people think the government should put in practice to keep the price stable

## 2 Introduction

It has become a common cry to every Ugandan today whether rich or poor about the daily increasing prices of sugar and unsteady price all over the whole country. In Uganda today a kilogramme of sugar in makerere is at 7000sh while in fort portal is at 6000sh and through my resarch, i hereby explainin to you my findings about the causes according to the ordinally citizens.

## 3 Body

Over the past years it has been observed that sugar prices keep on changing over every financial year. This financial year(2016/17) sugar prices have increased beyond everyone's expectations and here are the findings

## 4 Findings

High taxation on sugar by the government.

Reduction in sugar plantations.

Corrupt government officials that have taken part in purchasing and hiding of sugar.

Too much sugar export in outside countries by our sugar factories like META has led to scarcity.

Too much consumption of sugar has led to scarcity in surplus.

Increased number of immigrants from sudan and other countries.

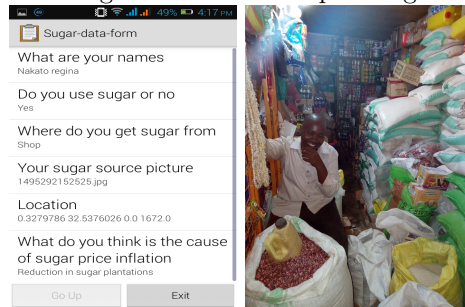

Business games among business men.

Inadequate sugar factories.

It is museveni(President) who has increased the sugar prices since it is his last reign.

The love to make poor people more poor by the government.

Planning of the financial upcoming financial year.

The image shows a mobile application interface on the left and a photograph on the right. The mobile screen displays a form titled "Sugar-data-form" with the following fields: "What are your names" (filled with "Nakato regina"), "Do you use sugar or no" (filled with "Yes"), "Where do you get sugar from" (filled with "Shop"), "Your sugar source picture" (filled with a file path "1495292152525.jpg"), "Location" (filled with coordinates "0.3279786 32.5376026 0.0 1672.0"), and "What do you think is the cause of sugar price inflation" (filled with "Reduction in sugar plantations"). At the bottom of the form are "Go Up" and "Exit" buttons. The photograph on the right shows a woman, identified as Mrs. Nakato regina, standing in a shop filled with large white sacks of sugar. She is wearing a white shirt and a dark skirt.

## 5 Conclusion

Sugar prices are really high and local people are blaming the government selfishness and its official for the price inflation.
